CAPITAL CREDIT PAYOUTS CAN NOW BE APPLIED DIRECTLY TO YOUR ELECTRIC ACCOUNT!

Do you hate having to remember to open your mail the middle of December each year?

Would you rather not have to worry about depositing a paper check in December?

Well then, we have a plan for you!

OCEC can now set our member's accounts to directly apply capital credit allocations each year to your active electric account(s). Currently memberships older than 2010 are receiving capital credit allocations. For more information on Capital Credits go to oceccoop.org/faq/

To set your capital credits allocation to apply directly to your current electric account email info@oceccoop.org, Subject: Apply Capital Credits with your name & account number or service address.

\$200 BILL CREDIT FROM WASHINGTON STATE FUNDS STILL AVAILABLE!

Through the Washington Families Clean Energy Credits Grant program, OCEC residential members could be eligible for a \$200 Bill Credit. This program is supported with funding from Washington's Climate Commitment Act to help low-to moderate-income families with their electric bills.

Per state guidelines, these funds will be prioritized to members at or below 80% area median income (AMI) and if funds remain can go up to 150% of the AMI. This is a one-time \$200 credit for eligible residential electric accounts.

It's super easy to apply for this program, visit https://wacleanenergycredits.com/relief_program. You will need your OCEC account number and your billing address zip code to start.

The funds must be distributed by September 15th, 2024.

Visit <https://wacleanenergycredits.com> to apply today!
