A member may choose to select a higher General Service class but shall be required to stay within that General Service for 12 consecutive months.

No electric service shall be supplied power that has a delinquent balance, regardless of ownership or responsibility.

**Electrical and Harmonic Interference:**

The member agrees to maintain an average total harmonic distortion (THD) level of the load current that is consistent with the IEEE 519 (1992) standard for distribution system customers. If the Cooperative determines that the member load is contributing to excess THD on the distribution system, the member will install the necessary filtering or compensation to maintain the THD at or below the level required by the Cooperative, within thirty (30) days of the Cooperative's written request to the member. Failure to install the necessary preventative equipment will result in disconnection of service.

**STATE AND MUNICIPAL TAXES:** All state and municipal taxes, in areas where applicable, will be charged to affected members.
