

POLICY NO. 30-140

EFFECTIVE DATE: January 1, 2025

SUBJECT: IRRIGATION SERVICE

AVAILABILITY: Available for service to irrigation pumps, subject to the established policies of the Cooperative.

TYPE OF SERVICE: Single-phase or three-phase, as available, at standard secondary voltages. Motors having a rated capacity in excess of 10 HP must be three-phase or be equipped with an approved phase converter.

RATE:	Monthly Service charge:	\$52.20 per month; Single Phase
		\$67.00 per month; Three Phase
	Demand Charge:	\$3.70 per kW
	Kilowatt-hour charge:	\$.0612 per kWh

MINIMUM CHARGE: The annual minimum non-pumping charge on all irrigation services shall be five (5) months of the monthly service charge. If usage occurs outside of the normal irrigation season the member will be billed the kWh's used plus the monthly demand charge plus the monthly service charge for that billing period.

SEASON: The minimum season is for five (5) full months between May & September.

Electrical and Harmonic Interference:

The member agrees to maintain an average total harmonic distortion (THD) level of the load current that is consistent with the IEEE 519 (1992) standard for distribution system customers. If the Cooperative determines that the member load is contributing to excess THD on the distribution system, the member will install the necessary filtering or compensation to maintain the THD at or below the level required by the Cooperative, within thirty (30) days of the Cooperative's written request to the member. Failure to install the necessary preventative equipment will result in disconnection of service.
